EXPERIENCE

Automaton Technologies

Feb 2025 - Now

Senior Software Developer

Remote

- Building a cybersecurity playbook dashboard in collaboration with a research team at the University of Oslo.
- Leading frontend architecture in a monorepo, designing scalable layers for performance.
- Integrated Nuxt as part of the team's requirements, optimizing developer efficiency and application scalability.
- Conducting code reviews and mentoring junior developers, driving clean code practices.

Peanut

Mar 2022 - Oct 2024

Senior Software Developer

London, UK (Remote)

- Improved UX by translating Figma designs into fully functional Next.js pages.
- Migrated legacy code to Next.js, cutting load times and enhancing performance.
- Reduced bounce rate by 27% and increased time on page by 777% through UX optimizations.
- Led technical interviews, improving hiring quality and team strength.

Mindgeek

Jul 2019 - Mar 2022

Software Developer

Nicosia, CY

- Built an admin dashboard that streamlined product promotions for marketing.
- Developed a real-time video platform with chat, increasing engagement by 25%.
- Integrated Redux and WebSocket in a legacy app, enhancing scalability and DX.

Amdocs

Sep 2017 - Jul 2019

Software Developer

Limassol, CY

- Developed UI components for the CORE team, improving DX and debugging efficiency.
- Integrated Storybook, improving component reusability and design consistency.

Huawei

Dec 2016 - Sep 2017

Network Engineer

Nicosia, CY

- Improved network stability by conducting daily maintenance, troubleshooting, and efficient issue escalation.

PROJECTS

Mirmigki.com (NextJS)

- Job board for Cyprus and Greece with AI-powered job description summaries for mobile users.
- Built with Next.js, Tailwind, Supabase, and integrated Stripe payments.
- Self-hosted with Directus CMS, UptimeKuma, and Sentry.
